Q1: Write a formal letter to the HR Manager of a software company requesting an internship opportunity.

From

John R
III Year, B.E. Computer Science
Anna University, Trichy

To

The HR Manager
TechNova Solutions Pvt. Ltd.
Chennai – 600096

Date: 18 October 2025

Respected Sir/Madam,

Subject: Request for Internship Opportunity

I am a third-year Computer Science student at Anna University. I am writing to request an internship opportunity in your organization during my upcoming semester break. I am interested in gaining practical experience in software development and data analytics.

An internship in your company will help me understand how software projects are developed and managed in a real working environment. It will also help me improve my technical knowledge, problem-solving ability, communication skills, and teamwork. I believe practical exposure will be useful for my future career.

I have attached my resume for your reference. I am ready to follow the rules of the organization and complete the work given to me sincerely. I kindly request you to consider my application and give me an opportunity to learn and contribute to your organization.

Thank you.

Yours sincerely,

John R

Q2: Write a formal letter to the college librarian requesting a reference book for exam preparation.

Detailed Sample Answer

From

Vinoth R
III Year, B.E. Computer Science
Anna University, Trichy

To

The Librarian
Anna University
Trichy – 620024

Date: 18 October 2025

Respected Sir,

Subject: Request for Reference Book – “Data Structures in C”

I am preparing for my upcoming semester examinations. I would like to request the reference book “Data Structures in C” by E. Balagurusamy from the college library. The book will be useful for my exam preparation and for understanding the subject clearly.

The book will help me revise important topics and improve my knowledge of data structures and programming concepts. I would like to use it along with my class notes and other study materials. Having the reference book will make my preparation more effective.

Kindly let me know whether the book is available and inform me about the procedure to issue it. I assure you that I will handle the book carefully and return it within the stipulated time. I request you to kindly consider my request.

Thank you.

Yours faithfully,

Vinoth R

Q1: Write an email apologizing for a delayed project submission.

From: [Send Email]
To: [Client Email]
Subject: Apology for Project Delay
Dear [Client Name], We sincerely apologize for the delay in delivering your project. The delay occurred because of some unexpected technical challenges. We understand that the delay may have caused inconvenience and affected your planned schedule. Our team is working on the remaining tasks and is taking immediate steps to complete the project. We are checking the technical issues carefully so that the final project will work properly and meet the required needs. We are also giving priority to the pending work. We assure you that the project will be completed and submitted by [date]. We value your understanding and patience and will make every effort to complete the work on time. We will also take steps to avoid similar delays in future projects.

Thank you for your continued support.

Best regards,
[Your Name]
[Your Position]

Q2: Write an email requesting permission to organize a technical seminar.

From: [Sender Email]

To: [Department Head Email]

Subject: Request to Organize Technical Seminar

Dear [Department Head],

I kindly request your permission to organize a technical seminar on [topic] for our department. The seminar is planned to give students useful information about current technical developments and career opportunities.

The programme will help students improve their technical knowledge and understand how the concepts learned in class are used in industry. It can also give students an opportunity to interact with professionals and learn about current industry practices.

We will make all necessary arrangements and follow the rules and guidelines of the department. We will also ensure that the programme is conducted in a proper and organized manner. Kindly grant us permission to organize the seminar.

Thank you for your consideration.

Sincerely,
[Your Name]
[Class / Department]

3. ESSAY WRITING

Sample Format

This is a model structure only. Do not copy these sentences as a complete essay answer.

TITLE	Write the topic clearly
INTRODUCTION	Introduce the topic in 2–3 simple sentences.
BODY – PARAGRAPH 1	Explain the importance, benefits, causes, or main points.
BODY – PARAGRAPH 2	Explain problems, effects, challenges, or disadvantages.
BODY – PARAGRAPH 3	Give solutions, suggestions, or a balanced view.
CONCLUSION	Summarize the main idea and give a final positive statement.

Q1: Write an essay on “Technology: Useful Servant but Dangerous Master”.

Technology: Useful Servant but Dangerous Master

Technology has become an important part of modern life. It has made communication faster, transportation easier, and healthcare more advanced. It has also opened new opportunities in education, research, and business. Students can use online resources to learn new subjects, improve their skills, and connect with people around the world.

Technology is very useful when it is used for productive purposes. Computers, smartphones, and the internet help people complete many tasks quickly. Online learning gives students access to educational materials from different places. Businesses also use technology to improve their services and support their growth.

However, excessive use of technology can be harmful. Continuous use of smartphones, social media, and gaming may reduce productivity. It may also cause eye strain, stress, lack of physical activity, and reduced social interaction. Young people may become distracted and spend too much time on digital devices instead of useful activities.

Therefore, technology should be used responsibly. People should manage their screen time and use digital devices mainly for useful purposes. In conclusion, technology is a valuable servant when we control it, but it can become a dangerous master when it controls our lives. Responsible use helps us enjoy its benefits while avoiding its harmful effects.

Q2: Write an essay on “Unemployment among Graduates”.

Unemployment among Graduates

Unemployment among graduates is an important problem in many countries. Many students complete their degrees but find it difficult to get suitable jobs. A degree alone may not always provide the practical skills required by employers. This creates a gap between academic education and employment.

There are several reasons for graduate unemployment. Some students may lack practical knowledge, communication skills, and work experience. In some cases, college courses may not fully match current industry requirements. Economic slowdowns, automation, global competition, and limited job opportunities can also affect employment.

This problem can be reduced through skill-based training, internships, and career guidance. Colleges can work with industries to provide practical exposure. Students should improve technical skills, soft skills, problem-solving ability, and knowledge of emerging technologies. Entrepreneurship and freelancing can also provide alternative opportunities for graduates.

In conclusion, reducing graduate unemployment requires effort from students, educational institutions, industries, and governments. Practical knowledge, skill development, and industry exposure can improve the employability of graduates and help them prepare for suitable careers.

4. MEMO WRITING

Sample Format

This is only a sample memo layout. It is not a complete answer to any question.

To	Name / Department receiving the memo
From	Name / Department sending the memo
Date	DD Month YYYY
Subject	Short and clear memo topic
Opening	This memo is to _____.
Details – Paragraph 1	Explain the purpose or background.
Details – Paragraph 2	Give rules, results, dates, instructions, or important facts.
Action / Conclusion	State what the receiver should do or what action is required.
Closing	Regards / Thank you, Name Designation

Q1: Draft a memo to final year engineering students informing them about the submission guidelines for their project report. Include the deadline, formatting instructions, submission format, penalty for late submission, and plagiarism policy.

To: Final Year Engineering Students

From: Prof. Ankit Verma, Head of Department

Date: October 21, 2025

Subject: Submission Guidelines for Final Year Project Report

Dear Students,

This memo is to remind all final year engineering students about the submission guidelines for the project report. All students are requested to prepare and submit the report according to the department requirements and the given schedule.

The report must follow the department template and include sections such as Abstract, Introduction, Methodology, Results, Discussion, Conclusion, and References. The final report should be submitted in PDF format on or before November 15, 2025. All required data and appendices should be included with the main document.

Late submissions will receive a penalty according to the academic rules. The report must be free from plagiarism, and all sources used in the project must be properly cited. Students should check the report carefully before submitting it.

Please contact the department office if you have any questions about the submission process or formatting requirements.

Best regards,
Prof. Ankit Verma

Q2: Write a memorandum to the Quality Assurance Department reporting the results of the energy efficiency tests conducted on Model X100. Include the test outcomes, any recommended improvements, and reference to attached detailed data.

To: Quality Assurance Department
From: Testing Engineer, Manish Patel
Date: October 21, 2025
Subject: Energy Efficiency Test Results for Model X100

The purpose of this memo is to report the results of the energy efficiency tests conducted on Model X100. The tests were carried out to check whether the model meets the required energy efficiency standards.

The Model X100 passed all the energy efficiency tests. The test results were 12% above the standard benchmarks. This shows that the model performed above the required level during the tests and achieved satisfactory results.

Although the results were satisfactory, minor firmware updates are recommended to improve the performance further. These updates can help optimize the system and improve its operation. The testing team recommends considering these improvements in the next development stage.

The detailed test data and recommendations are attached for reference. The Quality Assurance Department may review the attached information and take the necessary further action.

Regards,
Manish Patel
Testing Engineer

QUICK REVISION – FORMAT ONLY

LETTER	From → To → Date → Salutation → Subject → Body → Closing
EMAIL	To → Subject → Greeting → Purpose → Details → Request → Closing
ESSAY	Title → Introduction → Main Points → Problems/Effects → Solutions → Conclusion
MEMO	To → From → Date → Subject → Purpose → Details → Action → Closing

Exam tip: Learn the sample format separately. For the actual question, write 3–4 clear paragraphs relevant to the topic.
